My Safe Florida Home offers free hurricane inspections

With hurricane activity increasing, is your home safe from the next storm? To help Floridians identify how they can strengthen their homes against hurricanes and to reduce hurricane damage exposure in the state, the Florida Comprehensive Hurricane Damage Mitigation Program is offering free home inspections by qualified hurricane mitigation inspectors to eligible homeowners.

This is not an entitlement program. You must apply and obtain approval in order to receive the free inspection. Requesting or obtaining an inspection does not guarantee or automatically qualify you for a grant. Floridians whose homes have undergone a wind certification and hurricane mitigation inspection approved by the Department of Financial Services will then be eligible to apply for matching grants up to \$5,000.

A Floridian whose primary residence is a single-family, site-built home with an insured value of \$500,000 or less and has a homestead exemption is eligible to apply for a free home inspection.

A Floridian whose primary residence has a homestead exemption and an insured value of \$500,000 or less that is a unit in a residential building of up to four units will also be eligible to apply for a free home inspection. All unit owners in a residential building must agree to participate in the program to be eligible for free home inspections.

Properties not eligible for free home inspections include mobile homes or manufactured homes, second homes, rental properties, apartments, condominiums or businesses.

For more information, go to myflorida.com or call 1.800.342.2762.
